Transportation Management: Hours of Service

Every business relies on the transportation industry to maintain optimal delivery times. Without trucks and truck drivers, goods would never reach their destination. It is crucial that transportation managers, driver managers, and logistics planners understand government regulations to ensure that their designs are within the limits enforced by the Department of Transportation. This course is organized to give students a solid understanding of the hours of service compliance requirement.

March 6, 2018 9:00 am - 12:00 pm
AIDT Mobile - Brookley Complex
1854 Ninth Street
Mobile, AL 36615

$75 per person
